**Re: Sirius Satellite Radio Inc.  
Notice of *Ex Parte* Presentation  
EB Docket No. 04-296**

Dear Ms. Dortch:

On August 1, 2005, Terry Smith, Senior Vice President Engineering of Sirius Satellite Radio Inc. ("Sirius") and Jennifer Hindin of Wiley Rein & Fielding LLP met with the FCC staff members listed below to discuss Sirius' comments filed in the above-referenced proceeding regarding the Emergency Alert System ("EAS").

During the meeting, Sirius presented an overview of its current methods for acquiring and broadcasting emergency information. Sirius also responded to FCC staff questions regarding its ability to transmit national EAS alerts on all of its channels as well as state and local EAS alerts for regions for which it offers a traffic and weather channel. Sirius indicated that it would welcome opportunities to receive additional, authenticated emergency information from a centralized source and affirmed its willingness to use its satellite-based infrastructure for distributing nationwide EAS alerts.
